DETAILED ACTION

Allowable Subject Matter

Claims 1-10, 12-24, 26-38, and 40-44 are allowed.

The following is an examiner's statement of reasons for allowance:

The objected to subject matter contained in claims 11, 25, and 39 have been amended to all of the independent claims. This specific limitation of each data signal including an ordered triple of variables along with the arguments made by the applicant make the independent claims allowable over the prior art. In the examiners opinion the subject matter sought to be patented, as recited in the claims of the application, has practical application in the field of signal monitoring in a data processing system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
